

## LABOR. LAW OF HUNS AND VANDALS.

**It Is Only One Organized Labor Has Known.**

**President Parry Sounds Note of Manufacturers.**

**Those Who Believe in Free Government Must Stand Together Against Growing Menace.**

(BY THE ASSOCIATED PRESS.—A.M.)

NEW ORLEANS, April 14.—The National Association of Manufacturers representing hundreds of millions of invested American capital, began at Tulane Hall today what promises to be the most important annual convention in the history of the organization. The open and avowed opposition of President D. M. Parry to the methods of organized labor has attracted widespread attention, and the largely increased delegate representation from the various manufacturing States of the North was declared by the members to be largely due to the interest taken by the members in the labor question.

Large delegations from the Eastern and New England States arrived Sunday and yesterday, and the special train bearing representatives from the Middle States section came in this morning with President Parry and other officers of the association. Immediately upon the arrival of the train, the delegates gathered at Tulane Hall on University Place, where James W. Parry, vice-president for Louisiana, called the convention to order. After addresses of welcome by Mayor Paul Capdeville of New Orleans and Gov. W. W. Heard, to which President Parry responded, the convention settled itself to the serious business of the session, beginning with the reading of the president's annual report.

In beginning his remarks Mr. Parry paid a glowing tribute to the organization of which he is the head, recounting the valuable services it had rendered in causing the establishment of the government, beginning with the raising of its support of the industrial canal bill, its aid in defeating many obnoxious measures before the last Congress, especially in burying the so-called eight-hour bill for which the American Federation of Labor made such a determined but futile fight.

"With over two thousand manufacturing establishments of the country on its rolls," he said, "as compared to less than a thousand years ago, the association has become more than ever the unrivaled organization of its kind in the world. It stands today as the most efficient mouthpiece of the American capital in its productive enterprise. It stands as a bulwark of progress and as a foe to every agency or force that, through ignorance or deliberate intent, would check industrial development or wreck our free institutions on the rocks of economic fallacy."

"It is well that there is a revolution in the social order should at the very inception of their national program meet with organized resistance, and it was fortunate that there was an association strong enough to checkmate the influence of organized labor this last winter, in its hour of triumph, when, in the full plenitude of its power, it seemed certain of success. Perhaps no proposed act of legislation ever occasioned a greater outpouring of personal appeals to Congress than did the eight-hour bill. On the one side were the labor unions, sending in countless petitions demanding passage, and on the other side, in united array, were the manufacturers, respectfully urging its defeat and entreaty to its first decisive defeat of the socialist forces which have of late years had such surprising growth."

**ORGANIZED LABOR INDICTED.**

Continuing, Mr. Parry said: "Organized labor knows no law, and that is the law of physical force—the law of the Huns and Vandals, the law of the savages. All its purposes are accomplished either by actual force, or by the threat of force. It does not place its reliance in reason and justice, but in strikes, boycotts and coercion. It is, in all essential features, a mob-power, knowing no master except its own will, and is continually condoning or justifying the constituted authorities. The stronger it grows the greater a menace it becomes to the continuance of free government, in which all the people have a voice. It is, in fact, a despotism springing into being in the midst of a liberty-loving people."

"In setting itself up as an independent of the power of the state it does not regard itself as bound to observe the Fourteenth Amendment to the Constitution of the United States, which says: 'No State shall... enforce any law which shall abridge the rights of citizens of the United States, nor shall any State deprive any person of life, liberty or property without due process of law; nor deny to any person within its jurisdiction the equal protection of the laws.'"

"It has not, in times past, hesitated to resort to violence and the destruction of property to compel the acceptance of its demands. Its history is stained with blood and ruin. Many a man whose only fault was that he stood upon his rights has been made to suffer outrage, and even death, and many an employer has been brought face to face with financial ruin. These wrongs cry unto heaven, and yet an unarmored public sentiment too often permits them to go unheeded and unpunished."

"It now demands of the public and

of Congress the privilege to violate the laws forbidding violence and property destruction, that it may continue to maintain its power through a terrorism."

"It extends its tactics of coercion and intimidation over all classes, dictating to the press and the politicians, and strangling independence of thought and American manhood."

"It desires to show outside its ranks the individual right to dispose of their labor as they see fit—a right that is one of the most sacred and fundamental rights of American life."

The speaker then proceeded to specially name the crimes laid directly at the door of organized labor, as compiled from Chicago newspapers the shocking details in a long list of murders being given and recited the court records of Chicago showing a course of physical brutality and murder with the official sanction and orders of their organization.

**THE BOYCOTT.**

"Two of the products of organized labor for which the American Federation evinces a lively solicitude," said Mr. Parry, "are the boycott and the picket. The boycott is the celebrated 'refuse to deal' business, in its close and threatens to bring out the moment an employer declines to admit its demands. As defined by the Century Dictionary, the word boycott means 'the act of practicing or subjecting an obnoxious person or community to the organized refusal to deal with it.' The definition is exact—the boycott is nothing more or less than organized persecution. It is the twin brother of the black list, and neither has any place in this country."

"The boycott against the individual personally is one of the most brutal and despicable weapons ever used by bodies of supposedly civilized men. Wherever it is practiced, it is a non-union man is subjected to all manner of persecution and outrage. The number of men who are murdered each year because they refuse to obey the unions would make a significant statistical record. The organized persecution directed by the business of the individual or company—and this is the sense in which the term boycott is most frequently used—has happily, however, grown almost innocuous except where the unions dominate. That the most of these boycotts are perfectly harmless is not noticeably true, that such is the case. That body declares the boycotts in the full desire that they will ruin the business of the boycotted, and if it only had sufficient power it would give no quarter."

The speaker concluded by a general review of the industrial situation and a clear and forcible outline of the program to be pursued by the association in the accomplishment of its work for the future.

**EXCITING RESOLUTIONS.**

(BY DIRECT WIRE TO THE TIMES.)

NEW ORLEANS, April 14.—[Exclusive Dispatch.] The labor question was reached by the manufacturers' convention this afternoon. Resolutions were introduced calling attention to the fact that a Wall-street paper had censured President Parry for the attitude he had taken toward organized labor; calling for the approval of Parry's report by the Manufacturers' Association, and closing with the statement that the methods heretofore pursued in treating with the unions had failed, and that courage should be substituted for cowardice.

Reading of the resolution brought the members to their feet and, amid a mingling with cheers, indicated the intense feeling of the delegates. J. W. Van Cleave of Missouri moved the adoption of the resolution, and J. Kirby of Dayton, O., made an impassioned speech in its favor. There was much excitement, and it was apparent that a large proportion of the convention favored aggressive measures. It was a question whether the storm of feeling would carry everything before it, when J. F. Taylor of Cincinnati made a resolute call for any and every dispassionate address, at times eloquent, urging peaceful methods. He said inflammatory speeches would not do. He referred to the war of '61 with much feeling, and dwelt at length on what men's tongues had done then and might do again, if not bridled.

"After years of war," he said, "our country was filled with mourning, but after the ruin was done, a great man arose and said: 'Let us have peace.' It is no credit for Mr. Parry to raise war between capital and labor."

Gov. Warner of Chattanooga, said the manufacturers must act wisely and with deliberation. These speeches allowed time for delegates to consider, and the resolution was sent to committee. It will probably appear in a very modified form when it is again placed before the convention for adoption.

E. B. Pike of New Hampshire, introduced strong resolutions on the course of labor unions in bringing disgrace and contempt on the country and ruin to industries. He moved that the Manufacturers' Association establish a Bureau of Labor, with a secretary, investigators and organizers; that a Committee on Labor be appointed to settle disputes; also, that a workingmen's liberty union be formed to fight all organizations using the boycott.

E. F. Dubrul of Ohio offered resolutions pleading the association and independent workmen in their efforts to fight intimidation; urging an organization of employers, asking appointment of a committee as a clearing-house for ideas, etc. He woke up the delegates with a final clause on the boycott, and suggested that every member of the association subjected to it be empowered to notify all members of the fact, and that members give such boycotted members preference in all purchases until the boycott is off; also, that the committee have power to make reciprocal arrangements with other associations.

George J. Seabury of New York spoke vehemently on these resolutions, saying: "We manufacturers have no

rights, and we have to support the whole institution."

**TRADE UNION TYRANNY.**

(BY THE ASSOCIATED PRESS.—P.M.)

NEW ORLEANS, April 14.—C. W. Post of Battle Creek, Mich., delivered an address on "The Tyranny of Trades Unions." He said in part:

"I am here to plead the cause of the white slave of today. Practically every employed man is free as air to go and come at his pleasure and sell his labor where he likes; but the slave of a tyrannical labor union is in truth and in fact more abject than the negro slave of the past. There may have been some brutal and tyrannical slave owners in the South, but I asked you if even in the history of negro slavery did there exist such a condition of oppression, of cruelty to the men, women and children, terror, anarchy, beatings and murder as now exists under the acts of desperate members of labor unions."

This body should proceed at once to the work of organization. Paid delegates should be sent to the labor centers, there to organize local unions. These local unions would draw to themselves the best workmen in the land, who are now forced too often, from fear and by violence, to give over their liberty to the manipulation and direction of noisy, turbulent men."

THE HAGUE, April 14.—[By Atlantic Cable.] The business of the House of Representatives for refusing to produce the books of his firm in connection with an investigation of a real estate pool, and his case attracted national attention. Later, he recovered a judgment of \$33,000 for false imprisonment. He was at one time publisher of the National Geographic and the Critic. He was a native of Rochester, N. Y., and was one of the early California pioneers.

**Thomas W. Wood.**

NEW YORK, April 14.—Thomas W. Wood, the artist, and one of the founders and a former president of the National Academy of Design, died here today, aged 80 years.

**BALDWIN TAKEN TO TASK.**

WASHINGTON, April 14.—The War Department has taken official cognizance of the reported statements of Gen. Frank D. Baldwin, commander of the Department of the Colorado, in disparagement of the Filipinos and negroes as soldiers, and Secretary Root today directed that a formal inquiry be addressed to Gen. Baldwin asking whether or not he had been correctly quoted. Fearing a reply no action will be taken by the department.

Gen. Baldwin is fresh from the Philippines, and has just assumed command of the Department of the Colorado. The remarks which he is alleged to have made are to the effect that one of his reasons for liking the Filipinos is that they are "niggers" and that he has a preference for the negro in the same capacity—that in a fight he was not worried about his safety, it did not make any difference whether he got killed or not.

**MILTON ALLES'S DEPARTURE.**

WASHINGTON, April 14.—Milton Alles, assistant Secretary of the Treasury, will sever his connection with the department tomorrow. He has been the vice-presidency of the Riggs National Bank of Washington. Following is the President's letter accepting Mr. Alles's resignation:

**WHITE HOUSE.**

Washington, March 21, 1937.  
My Dear Mr. Alles: I shall be away when your resignation comes in, and I shall ask you to consider this letter as accepting it in advance. I trust I need not assure you of the very great regret I feel at your going. Of course, I understand that you cannot in justice to your family, retire such an offer as has been made you, but both the Secretary and myself feel your going as a personal loss to us, as well as to the Treasury.

**Bosche's German Symp.**

We cannot understand why any person suffering with a cold or throat and lung trouble should be tempted to purchase the German Symp. sold in all civilized parts of the world, without a single word of warning. These men are the same as the men who sold the German Symp. in California, and who were selling the same in the United States.

**Grand Jury is Told by Judge Holt that it can Proceed in Spite of Alleged Interference From Washington.**

(BY THE ASSOCIATED PRESS.—P.M.)

SAN JUAN (Porto Rico) April 14.—[By West Indian Cable.] The grand jury is investigating the smuggling cases in which the officers of the United States Navy and other prominent men are involved, notwithstanding the instructions which, it is stated, District Attorney Pettinelli has received from the Department of Justice at Washington not to present information to the grand jury at this time. The press and natives have practically demanded an investigation, inasmuch as, during the last term, a native merchant named Ricardo Armento was sentenced to a year's confinement in the penitentiary and a fine of \$100 for having contraband liquor in his possession.

This afternoon the grand jury came into court and asked for information. The foreman said: "It has come to our knowledge that certain cases of smuggling have occurred. We have asked the District Attorney about the matter, and he refused to bring up the matter, alleging that he had received certain instructions. We now ask the judge if we have a right to information in spite of the District Attorney's refusal."

Judge Holt had prepared a written charge, the reading of which caused a sensation. He said in part: "When you were empaneled at the beginning of the term, you swore that you would make a diligent inquiry into such matters given to you, or which might otherwise come to your knowledge touching violations of the statutes of the United States, and that you would make no presentment through hatred, favor, envy, affection or reward, or through hope thereof. You could not, if you desired, escape from the obligations of your oath by heeding the instructions of any and all who might endeavor to influence you. The honored President of the United States could pardon, but he could not interfere. If you believe that anyone has given the instructions of any and all who might endeavor to influence you, the fullest investigation into the commission of a crime in the United States and the returning of an indictment, if the evidence so requires, then you should be inspired by an additional determination to do your duty. The court has knowledge of the instructions to which the District Attorney alludes. It is proper to say that it is my opinion that there has been no intention of encroaching upon your sworn duty of the judicial domain."

The testimony submitted last December regarding the smuggling cases pointed to a dozen prominent officials of the navy, army and insular government and citizens being implicated in the charges.

**OBITUARY.**

Hallett Kilbourne.

WASHINGTON, April 14.—Hallett Kilbourne, formerly Chief Clerk of the Interior Department, and one of the most widely-known citizens of Washington, died here today of paralysis, aged 72 years. He was arrested and detained by the House of Representatives for refusing to produce the books of his firm in connection with an investigation of a real estate pool, and his case attracted national attention. Later, he recovered a judgment of \$33,000 for false imprisonment. He was at one time publisher of the National Geographic and the Critic. He was a native of Rochester, N. **When Liable for Damages.**

DENVER, April 14.—Employers who fail to explain to men taking the place of others who may be out on a strike the annoyance or violence to which they are subjected by the business of the case in injury is done. This is the opinion of the Court of Appeals just issued from the case of William Holshausen, who while in the employ of the Denver Gas and Electric Company, was shot by striking employees of the company. He declared that he was hired without being told that there was a strike at the plant.

**Decide Not to Form Union.**

FRESNO, April 14.—At attempt to organize the lumber mill hands at Clovis today was opposed by the employers, and about half the employees. All who joined the union yesterday were expelled by the mill management this morning. This afternoon the mill closed down, while a mass meeting of the men was held. After four hours' discussion it did not make any difference whether he got killed or not.

**Closed to Avoid Trouble.**

OTTAWA (Ont.) April 14.—The Hawkeye Company's mills have been closed to avoid trouble. There was a large number of men ready to start work but as a conflict was imminent between the strikers and the company, the company closed down altogether.

**Unskilled Laborers Organize.**

WASHINGTON, April 14.—The organization of an International Building Laborers' Union made up of unskilled laborers in the building trades throughout the United States and Canada, was perfected today at the convention of representatives of the laborers held here. The convention recommended the seating of about thirty delegates mainly from the eastern section of the country. A constitution for the union was adopted.

## PITH OF NEWS FROM THE MIDDLE WEST.

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, April 14.—[Exclusive Dispatch.] The climax in Chicago's three days of heavy rainfall came this morning, when strong northerly to northeasterly winds drove the rain in sheets and made the day one of the most disagreeable of the spring. Snow flurries are predicted, but it is thought that the storm will move across this section of the lake region before this stage is reached. The minimum temperature today was 36 deg. at 7 a.m., and the maximum 40 deg. at noon. Showers with a continuance of northerly winds are on the program for tomorrow. The gale kicked up a terrific sea, and made the river three feet higher than it has been this spring. Temperatures at 7 a.m.: New York and St. Louis, 47; Boston, 46; Philadelphia, 44; Washington, 46; Chicago, 36; Minneapolis, 34; Cincinnati, 46.

**THINKS SHE CAN SPARE HIM.**

Shooting lighted matches out of his wife's hand, chasing her through the fashionable avenue hotel at midnight, and pulling her out of bed by her hair, are some of the allegations made by Mrs. Mary F. Sholes in her suit for divorce from Salmon G. Sholes, whose father was the inventor of the Sholes typewriter. The court allowed her temporary alimony of \$10 a week.

**WEDDING AT OAK PARK.**

Miss Julia Ethel Blanchard, daughter of Mr. and Mrs. W. A. Blanchard, was married this evening to Frederic Lee Brooks in the First Presbyterian Church at Oak Park. A reception at the bride's home followed, the bride and groom standing within a leafy bower to receive their guests. The bride's gown was of mousseline de soie over satin, with a point applique bethra. She wore a tulle veil and a necklace of pearls.

**MARRIED IN FLORIDA.**

Miss Julia Rogers McConnell, daughter of Judge and Mrs. S. P. McConnell of New York, was married today to Mitchell Hollingsbee of this city at the winter home of the bride's parents at Seabreeze, Fla. The bride was gowned in white silk tulle, with lace medallions, and she carried lilies of the valley. The house was decorated with waterlilies, palms and roses.

The Grand Master announced his committee for the session, and named Gov. George C. Pardee, representative from Oak Leaf Lodge, No. 35 of Oakland, chairman of Special Committee No. 2. As the names were being read Gov. Pardee was announced as in waiting, and desiring to be admitted. He was escorted to the altar by Past Grand Masters Danforth, Hirschberg and Booth, and then introduced to the Grand Lodge by the Past Grand Master, a member of the body, and invited him to a seat on his left.  
The reports of the grand officers were presented. Those of the Grand Master were read by that official. He reports that but three lodges have been initiated during the year, that one was consolidated, and that Anaheim, Guerneville and Redley lodges surrendered their charters. The total gains were 252, and losses, by suspensions, deaths and transfers, to other jurisdictions, 228, leaving a net gain of 24 to December 31. He urges the creation of an elective Master to be known as a Grand Officer.  
At the close of the reading of the report, the membership of the Grand Lodge rose to 1,000. The Past Grand Master, who gave three cheers for the Governor of California, and called upon the representative from Oak Leaf to respond. The Governor said that he did not appear before the body as Governor, but as a member of the order ready to perform such duties as might be assigned to him and that he would do his best to advance the organization of the Grand Lodge. He said that he had been in the many years of its existence.  
At the afternoon session the Grand Lodge was surprised by the announcement that Supreme Master Workman McNally was waiting, having come from Texas to attend the session.  
A resolution was introduced recommending that lodge dues be not less than 50 cents per month, instead of not less than 25 cents, as at present.  
Past Grand Master Bahrs introduced a proposition to create the office of Assistant Grand Master, at a salary of \$200 a month.

SAN FRANCISCO, April 14.—The laying of the cable between the Farallones and Point Reyes was completed this morning. Prof. A. G. McAdie of the Weather Bureau sent the following greeting over the new cable:  
"Citizens Southeast Farallone by the Sea (more sea than Farallone) send greetings. Nearly thirty-one years before Jamestown or New Amsterdam, and over forty years before the Pilgrim Fathers landed at Plymouth, Rock, the accents of our mother tongue were heard at Point Reyes and the Farallones. We are talking today under the sea on which Drake sailed the Golden Hind 324 years ago."

CABLE TO ALASKA BY FALL.  
[BY THE ASSOCIATED PRESS.—P.M.]  
SEATTLE (Wash.) April 14.—Within a month the telegraph system of Alaska will be completed, and by fall the cable connecting Seattle with Juneau and the far north will be in operation. These announcements were made here today by Gen. Greeley, chief of the United States Signal Corps. The cable ship Burnside will reach Sitka about June 15, and after running a cable from Sitka to Juneau, Haines Mission will lay the big cable southward 1200 miles in two sections to Seattle. The cable, it is believed, will be in working order by November 15.  
A gap of but fifty miles exists between the eastern and western branches of the Alaska telegraph system. The line extends up the Yukon River from St. Michael to the mouth of the Tanana, and thence for 100 miles above that river. The other line is from Valdez across to Eagle City, near Dawson, a branch of which extends to Tanana to meet the other.  
**M'CLOUD POWER COMPANY.**  
**IN HANDS OF RECEIVER.**  
[BY THE ASSOCIATED PRESS.—P.M.]  
REDDING, April 14.—Superior Judge Head today appointed D. M. Burson, a local civil engineer, receiver of the McCloud River Electric Power Company. The appointment was made upon the suit of L. E. Barnes, a director, against the McCloud River Electric Power Company and the remaining directors.  
In his complaint Barnes alleges that to secure the indebtedness of the company a mortgage of \$200,000 was given to the Union Trust Company. On this mortgage \$20,000 interest is due. The mortgage was given to the Union Trust Company, without the consent of said corporation, has hypothecated certain bonds belonging to the company, and has received therefrom a sum of \$20,000 or thereabouts, and has appropriated the greater portion thereof to his own use and benefit.  
Barnes further charges Proctor with refusing to render an accounting, and alleges that in March, 1902, the company advanced him \$10,000 to pay labor and material claims, but that he has failed to pay the same.  
The company was to install an immense power plant on the McCloud River in this county. Proctor came here with Lord Thurlow in the interest of the Eureka and Eastern Railway, which was to build a line from Eureka to Weiser, Idaho, by way of Redding. Proctor became interested in the power enterprises, and soon became president of the company.  
The power company had gotten no further than to build some wagon roads, and the company is now in the Redding yards for a freight bill. Water rights, tools and everything substantial have been attached for wages and material furnished.

[BY THE ASSOCIATED PRESS.—P.M.]  
SAN FRANCISCO, April 14.—Since the middle of February, eight weeks, 20,029 colonists have come into California from points eastward of Oregon on the Central route, and El Paso on the southern route, encouraged by the special rate offered by the Southern Pacific.  
The State Board of Trade met today. President Chipman suggested that the board could increase its usefulness by arranging for a corps of intelligent correspondents in all important localities of the State to send in monthly reports of the crop conditions, and incidentally the industrial conditions of the different localities, having the same published

in the form of bulletins for general distribution. George C. Pardee was elected an honorary member.  
A resolution was unanimously passed endorsing the board's manager, J. A. Fischer, for appointment as one of the commissioners from California to St. Louis.

OAKLAND, April 14.—The grand jury this morning took up the investigation of the alleged excessive supplies on hand at the County Clerk's office. During the inquiry it developed that there are 36,000 blanks of one description, which will require twenty-two years' time to consume at the present rate the documents are being used. The total supply on hand is over 1,000,000 blanks—more than the city of Oakland can use in ten years. The yearly average at present is about 75,000 blanks.

According to Operators There He is from Forty to Sixty Feet Long, Has Head Like Horse and Travels Like Torpedo Boat.  
[BY THE ASSOCIATED PRESS.—A.M.]  
VICTORIA (B. C.) April 14.—Officials at the cable station at Bamfield Creek are sponsors for a story that a sea serpent from 40 to 60 feet long, and with a head like a horse, has been seen off the station. The cable operators, in letters to the local newspapers, said that Indians had been telling of the existence of a sea serpent, but the stories were not credited. David Osborne, one of the officials, says that a week ago the animal was seen in the cable station to raise a big horse-like head and swim out of the mouth of the Bamfield Creek into Barclay Sound.  
Mr. Godson, of the cable station, said that when he first saw the animal it looked like a massive sea weed, but presently he saw the head elevated, and the big serpent moved off toward the sea. Godson says it moved off with the speed of a torpedo boat.  
On April 10, an Indian saw the thing and was so frightened that he ran his canoe into the breakers, left it, and fled along the beach to the cable station. The Indian said the thing had a head shaped like a horse, and its body, ten feet of which was lifted, was the size of a barrel.  
The Indians in the neighborhood are terrified.

[BY THE ASSOCIATED PRESS.—P.M.]  
STANFORD UNIVERSITY, April 14.—Serious damage to Stanford's new mechanical engineering laboratory occurred this afternoon through the caving in of the heavily-tiled Louvre roof. Many tiles fell through to the main floor of the building, where several students and laborers were at work putting in place new machinery. The caving in of the roof preliminary to the crash was sufficient warning for all to escape uninjured. The estimated cost of the damage is \$1200.  
President Jordan of Stanford, President Wheeler of the University of California, and Dean Norton of Pomona College, constituting a committee on the award of the Rhodes scholarship from the State of California, have decided that the first scholarship shall be granted to the University of California. The award will be made next winter, and the following year a scholarship will be given a Stanford graduate.  
President Jordan is in receipt of a letter from George C. Ross, the well-known attorney of Redwood City, enclosing \$100 to be given to the winning team in the annual Stanford-California intercollegiate debate, that will be held in San Francisco next Saturday evening. Heretofore James K. Moffitt, graduate of California, has presented an annual price of \$200, but discontinued his offer this year.

NEWPORT (R. I.) April 14.—The wedding of Reginald C. Vanderbilt of New York, the youngest son of the late Cornelius Vanderbilt, and Miss Cathleen G. Neilson, also of New York, which occurred at "Arling" at noon today, was a brilliant as well as an early beginning of the social season of 1903 at Newport. As the marriage took place in a private villa, it lacked much of the splendor which usually attends a church function. About 150 guests, nearly all from New York, were present.  
It was a white wedding. The decorations were white, on a background of green; the bridesmaids were dressed in white with white picture hats; the bride, groom, his best man and the ushers wore white puff cravats and white boutonnieres, and the bride, of course, was attired in the purest white. The weather sulked, and instead of a sparkling spring day, it was gray and cold with a misty northeast wind blowing in from the sea.  
For an hour preceding the ceremony an orchestra played, and just at noon the measured strains of the military march signaled the approach of the bride party. Rev. Father Meenan, attended by two altar boys, previously had taken his place at a floral altar, and just as the procession started down the grand staircase, Vanderbilts, accompanied by his elder brother, Alfred Gwynne Vanderbilt, took position beside the priest.  
Miss Neilson advanced on the arm of her uncle, Frederick Gebhardt. Her four bridesmaids were Miss Isabelle May of Washington, Miss Florence Twombly, a cousin of Mr. Vanderbilt, Miss Evelyn Parsons and Miss Nathalie Schenck. The maid of honor was Gladys Vanderbilt, a sister of the groom.  
The bride, who led the procession, was Jules B. Neilson, a brother of the bride; Ellis Adams of Orange, N. J.; Arthur S. Burden of New York; S. P. Stone of Syracuse; Peter Goslet Gery, of Albany; and Albert Gray of New York.  
The bride was gown in heavy white silk with a costly veil of lace and flowers from the grove of her head to the end of the train. Around her throat was tightly clasped a serpent necklace of rarest pearls, the gift of her bridegroom.  
The ceremony was brief. Its completion was indicated by the Mendelssohn "Wedding March," followed, and an inspection of the gifts which were declared to be as costly an array as was ever bestowed on two young people at the advent of their nuptial life. Then came the wedding breakfast. Mr. and Mrs. Vanderbilt left for their new villa at Sandy Point, a few miles up the island, during the afternoon. They will spend a few days, previous to a three months' trip to Europe.  
Among those present were the following: Mrs. F. W. Vanderbilt, Mr. and Mrs. D. S. Stone, Mr. and Mrs. McK. T. Burden, Mr. and Mrs. J. Townsend, Mr. and Mrs. R. Pearson, Chauncey M. Depew and Mrs. Depew, Dr. Seward Webb, Mrs. Elliott Sheard, Harry Payne Whitney, Mrs. Arthur Kemp, P. F. Collier, Potter Palmer, Gouverneur S. B. Lee, Mr. and Mrs. Reginald Norman, Mr. and Mrs. W. Storrs Wells, Mrs. C. M. Oelrichs, and Mrs. Peter Martin. Mrs. Gouverneur Courtright, Mrs. Burke Roche, Mr. and Mrs. William E. Carter and Mr. and Mrs. Edward Berwind.

WASHINGTON, April 14.—[Exclusive Dispatch.] Commissioner-General of Immigration Sargent will leave on the 23d inst. for a trip to the Pacific Coast and Hawaii, via New Orleans and Los Angeles. He will inspect the work done at San Francisco under Inspector Meenan, and will call on the 25th inst. for Honolulu. The inspection service there will be looked into and plans approved for the construction of a building for which Congress made an appropriation of \$30,000. Commissioner-General Sargent will return to San Francisco about May 10, and will return via Seattle and the Canadian Pacific, inspecting immigration offices along the northern border.  
**ROTTENNESS IN POSTOFFICE.**  
[BY THE ASSOCIATED PRESS.—P.M.]  
WASHINGTON, April 14.—The investigation of affairs at the Postoffice Department resulted in no important developments today. The inspectors are numerous at the department, and their reports have necessitated an addition to the usual stenographic force of the Fourth Assistant Postmaster-General's office.  
Inspector Fosses, the former director-general of posts of Cuba, and one of Mr. Bristow's chief assistants in conducting the inquiry, was engaged today in the investigation of the Free Delivery Bureau. Inspector Thorpe of New York, who has just returned to that city, is working on a detail there, and is believed to be looking into the charges affecting the recent readjustment of salaries and allowances for postoffice clerks in New York City.  
Senator Lodge of Massachusetts had a long conference today with Postmaster-General Payne, and urged the appointment of one of his constituents as assistant Attorney-General for the Postoffice Department, to succeed J. M. Payne, who resigned recently. Mr. Payne announced tonight that there would be no further changes pending the close of the investigation.  
**STATUS TO DATE.**  
[BY DIRECT WIRE TO THE TIMES.]  
WASHINGTON, April 14.—[Exclusive Dispatch.] So much sensational information has gone out with regard to the investigation now going on in the Postoffice Department that the re-immediate issuance of a wholesome statement will have a wholesome effect. The idea of making an arrest has not yet entered the head of anyone in authority. Of course it is impossible to predict what the investigation eventually will bring to light, but as yet there is nothing in sight more serious than great laxness of administration.  
That there has been extravagance in the administration of three divisions of the department is known. The Divisions of Salaries and Allowance, of

Free Delivery and of Supplies unquestionably have been handled with too little regard for economy. Mr. Beavers has already resigned as chief of the Division of Salaries and Allowances. Mr. Machen is under fire in the Free Delivery Division and his resignation is predicted. Mr. Louis, chief of Supplies, a far less important position than either of the other two, probably will be transferred to some other place. The result will be to bring subordinate divisions under the control of superior officers, who at present are charged with the responsibility, but not clothed with authority. For ten years, Machen and Beavers practically have controlled the Postoffice Department. They have had the expenditure of vast sums of money and the appointments of thousands of employees, and so strong have they been in Congress through the years that they have granted Senators and Representatives that no Postmaster-General or Assistant Postmaster-General has ventured to challenge their assumption of power.  
It remained for Assistant Postmaster-General Wynne to attempt the exercise of control over his subordinates. The instant that Mr. Wynne showed signs of independence by insisting upon an accountability to himself and the Postmaster-General he encountered opposition which extended to the Capitol and reached out toward the White House. Machen and Beavers resented his reading letters that they placed before him to sign, and Machen tried to obtain the removal of Mr. Wynne from the department. It was then that the Postmaster-General came into the game.  
With the hearty approval of the President, the Postmaster-General ordered an investigation of these subordinates, with a view to ascertaining what could best be done to bring the department to a business basis. As specific charges against Machen and Beavers quit, Machen, more confident in his influence, clings to his place and threatens to fight. The extraordinary thing about it is that Machen is a Democrat, continued in office under successive republican administrations, and that his strongest friends and backers in Congress now are Democrats. It is from Democratic sources almost entirely that the opposition to

Persons who have visited the islands claim that they had heard of certain claims being made by natives of Upolu to lands in Tutuila, the claimants being descendants of natives of Tutuila who went to Upolu to be married and resided, thus making the claims of a traditional character. It is said that land claims of this nature were not brought forward before the Samoan commission during the consideration of the tripartite arrangement.

OAKLAND, April 14.—Capt. Pete Lohman of the Oakland baseball club has resorted to the courts to try to prevent one of his star players from jumping his contract. Outfielder O'Hara has jumped the Oakland team. In order to join the Pacific National League, Lohman applied to Judge Melvin today for a restraining order, and was given a temporary injunction against the fielder. The merits of the case will be heard next week in the Superior Court.

PACIFIC COAST LEAGUE.

SACRAMENTO-SEATTLE.

BY THE ASSOCIATED PRESS—P.M.

SACRAMENTO, April 14.—The contest between Sacramento and Seattle today resulted in eleven innings of the fastest kind of ball, played within a few minutes of two hours. Schock and Thomas, the opposing twirlers, gave very little to choose in their work, and the play of their fields left nothing to ask for, being brilliant at all points. The pace was too fast for umpire Levy, however, and his misjudgment was the only thing to mar the game. Score: Seattle, 2; hits, 4; errors, 1. Sacramento, 1; hits, 7; errors, 0. Batteries—Schock and Boettiger; Thomas and Graham. Umpire—Levy.

OAKLAND, April 14.—Light hitting and fine fielding characterized the game between Oakland and Portland of the Pacific Coast League today. It was a pitchers' battle with both slams being well backed up, but the two misplays of the Northerners in critical conditions cost them the game. Here, the Oakland pitcher, was in splendid form, and it was largely due to his work that Portland was shut out. Score: Oakland, 2; hits, 5; errors, 1. Portland, 0; hits, 3; errors, 2. Batteries—Herr and Gorton; Shields and Vignone. Umpire—McDonald.

BUTTE PLAYED GREAT GAME.

BY THE ASSOCIATED PRESS—P.M.

SAN FRANCISCO, April 14.—The opening game of the Pacific National League today was a pleasing contest, being full of sharp, clean fielding and with a spectacular opening that enthused the large crowd of spectators. In the opening inning, when San Francisco was at bat and two men on bases, Marshall hit the ball over the fence for a home run, and the trio of tallies that resulted were the only ones scored in the play. A feature was the superb pitching of Dowling of Butte, who struck out eleven men. The play had a splendid start, from the fact that Mayor Schmitz tossed the first ball over the plate. Score: San Francisco, 3; hits, 6; errors, 0. Butte, 0; hits, 5; errors, 2. Batteries—Stovall and Zelfuss; Dowling and Swindells. Umpire—Warner.

PORTLAND, April 14.—Spokane and Portland Pacific National League teams inaugurated the 1903 season in this city today with a fourteen-inning game which the visitors won by a score of 3 to 2. The day was cold and raw, but the fielding was excellent, each team being credited with only one error. Neither side was able to put a man over the plate until the thirteenth inning, when Spokane scored two runs. Portland came up and tied the score. In the fourteenth Kaloup hit for one bag, stole second, reached third on a passed ball and scored on Eisey's safe hit. Attendance 2200. Score: Spokane, 3; hits, 14; errors, 1. Portland, 2; hits, 13; errors, 1. Batteries—Damon and Zaluskey; Quick and Anderson. Umpire—Haffey.

SEATTLE (Wash.) April 14.—Seattle won the opening game of the season in the ninth inning with two men out. Both Hogg and McCarthy pitched well, and they were backed up by sensational fielding. It began raining in the sixth, and Hogg lost control, temporarily, filling the bases with no one out. Two runs were scored on in-field hits. Hulen scored the first run of the season on a walk and steal on Treadway's drive. Seattle won in the ninth on Fisher's error. With Treadway on second and one out, Fisher dropped Kelly's drive, and in trying to catch him at first

RASIN (Mont.) April 14.—Aurelio Herrera, the Mexican, last night knocked out Cycloze Jackson, colored, in the first round of a twenty-round go.

STONE BEFORE GRAND JURY.

United States Senator Questioned Regarding His Knowledge of Legislative Boondoggling—Phelps Missing.

ST. LOUIS, April 14.—The investigation of charges of boondoggling in the State Legislature in connection with baking powder legislation was resumed today by the St. Louis and Cole county grand juries. Circuit Attorney Polk and Atty.-Gen. Crow are in frequent communication over the long-distance telephone, advising each other as to the progress made by their respective investigations.

A subpoena was served this afternoon on United States Senator William J. Stone, who represented the Public Health Society before the Legislature in the interest of the anti-alum measure. This was done before Stone had been elected to the Senate. Senator Stone was before the grand jury one hour and twenty minutes, and when he came from the jury room he said: "I think my testimony will be of no value in prosecution of the boondoggling charge. After this is over I will make a full statement."

PHILIPS IS MISSING.

BY THE ASSOCIATED PRESS—A.M. CARTHAGE (Mo.) April 14.—It was learned today that Col. W. H. Phelps, for whom a subpoena was issued at St. Louis today, left the city late last night. Inquiry at his home here today elicited the information that he was not in the city, but the servants were unable or unwilling to state where he had gone.

GREATEST MERGER OF ALL.

Steel Trust to Hasten the Combination of All Concerns Connected With the Operation of its Business.

BY THE ASSOCIATED PRESS—P.M. PITTSBURGH, April 14.—The Post tomorrow will say that further mergers of the various subsidiary companies of the United States Steel Corporation are still being considered in the general offices, but recent events may tend to hasten the original plan of the executive boards to bring about the greatest merger of all.

Reports in financial circles are that on account of the decision rendered in the Northern Securities case, the general officers of the United States Steel Corporation have decided to hasten the merger of all the iron-ore mines, steel mills, furnaces, coke ovens, railroads, steamships, coal mines, and everything now operated under individual charters into the single ownership and operation of the parent corporation.

It is claimed that this plan will place the corporation on a whole out of the reach of any possible class of the law under which the Northern Securities corporation was attacked.

Two Hungarians were killed and two injured yesterday in a belated explosion of dynamite at the New Mountain Washington tunnel of the West Liberty Traction Company in Pennsylvania.

TALK IT

over—this question of clothes, but while you're waiting there's another man running off with the suit you want.

Silverwood tailoring is what most tailoring is intended to be.

Compare the forty-dollar suit sold by the other fellow with the Silverwood suit at thirty.

There's a lot of smartness here in fancy hosiery that'll interest you.

KERN COUNTY.

OUTLAW STILL RUNNING.

BY THE ASSOCIATED PRESS—P.M.

BAKERSFIELD, April 14.—Nothing further has come to hand tonight from Kernville, in regard to the pursuit of James McKinney, the "outlaw," now somewhere in the mountain fastnesses of that region. Oliver Thatcher, Jr., who keeps a store near Onyx, a few miles from Kernville, is here, and reports that he saw and talked with the fugitive Sunday, the latter stopping at his place a few minutes. He had his two horses at that time. Monday morning a posse met him at Kernville, and a running fight ensued, the outlaw making up the mountain side, abandoning his horses.

Sheriff Kelly has been notified from Randburg that Sheriff Lovin of Arizona will come by train to Bakersfield and proceed overland to the front. Officers from here are to accompany him. City Marshal Packard and Deputy Sheriff Tibbets have gone out tonight to join the man hunt. Many wild rumors of the outlaw being wounded or killed or captured have floated in, but investigation fails to verify them. The wires are not working well, and it is impossible to reach Kernville on the telephone.

UNDELIVERED TELEGRAMS.

There are undelivered telegrams at the Western Union Telegraph Company's office for Louis Bert, Roy M. Pike, W. A. Fisher, W. T. Suffer, Anthony Coulton, Edward W. Judd, Miss Louise Cornell, Mrs. A. R. Castle, Smithers, Frankie Woodill, Allen N. Spence, Joe Siet, G. L. Hitt, Charles Kurtz, Mrs. R. C. Rockwood.

SAN DIEGO COUNTY.

HON. C. H. FREEMAN DEAD.

BY THE ASSOCIATED PRESS—A.M. SAN DIEGO, April 14.—Hon. Charles H. Freeman, for fifteen years connected with legal affairs in this county, died early this morning at his home in National City, at the age of 78.

Times-Mirror Company to its job pressmen and feeders was fixed long before the unions' demands on the other offices which are under union dominance were formulated.

**PLACES BEING FILLED.**  
Very few of the pressmen and feeders now on strike have secured new positions as yet, and a good many of them will remain idle for some time, unless they make peace with their late employers by renouncing allegiance to the union, for the master printers almost to a man are standing pat to refuse recognition of the union in employing new men or re-employing any of the old.

**LABOR UNION BULL TAKEN BY THE HORNS.**  
The Master Carriage Builders Issue a Manifesto.

**Resolve to Stand Together as One Man**  
in Resisting the Unreasonable Demands of Walking Delegates—Steps Taken to Forestall Strike.

The carriage and wagon builders of Los Angeles who are threatened with a strike on the part of their union employees on May 1, unless they comply with certain humiliating and unreasonable demands made by the walking delegates of the union, have taken the bull by the horns in a vigorous manner by adopting the following resolutions, which they say they will adhere to, come what will:

"We, the undersigned carriage and wagon builders doing business in the city of Los Angeles, Cal., do hereby resolve and agree that we will not in any way recognize any union of employees as a union.

"We positively will not recognize or treat with any union or walking delegate, or other representative of any union as to hours of labor, or wages paid, or as to whom we shall employ or discharge. We expressly agree to our respective shops as open, independent and non-union shops in every sense of the word. We shall hire whom we choose, discharge men at our own discretion, and pay such wages as shall be agreed on between ourselves and our employees, each acting for himself individually. We shall employ union and non-union workmen indiscriminately and without prejudice to a union man merely because he is a union man.

"While we individually and collectively admit the right of employees to belong to unions, and admit that many of the fundamental principles of unionism would be beneficial and elevating to the workmen if put forward in a spirit of fairness between employer and employee, we, one and all, recognize in unionism as sought to be applied in our shops, nothing but a distinct usurpation of the rights and privileges of the employers by their employees, all of which we declare to be unconstitutional, and not founded upon common sense and business principles.

"This agreement is to be binding on each and every one of us, respectively until annulled or declared void by a majority vote of the parties hereto appearing their signatures. Should any of the parties of this agreement desire to withdraw from said agreement, it is herein and now distinctly understood that he or they cannot honorably do so, except in open meeting convened in response to call of our chairman, and then only upon permission obtained by a majority vote of the parties present.

"This agreement takes effect May 1, 1933.

The signatures to the foregoing are: Lloyd Carriage Works, by Ed Lloyd; C. F. Pike & Co., by G. F. Pike; Earl Carriage Works, by Earl Carriage; Electric Carriage Works, by J. Hafer; U. Tabor & Co., by George N. Bookhart; Carriage Wrecking Company, by A. G. Smith; Los Angeles Carriages, by S. G. Wheeler; Standard Carriage Works, by P. Weber; J. Reynolds Carriage Works, by B. A. M. Spear, J. Hansen, and the others have signed.

Most of the other tenants which includes practically all the master carriage and wagon builders in the city, are George F. Pike, president; Ed Lloyd, vice-president; J. U. Tabor, secretary and treasurer. It is a strong organization and sure to win if the members all remain true to their iron-clad agreement.

**BIG CORPORATIONS.**  
Jersey City Seems to be the Home of Most of Them—They Bunch Together in One Big Building.

[New York Sun.] It is only eight stories tall, the building at 15 Exchange Place, Jersey City, but in the number of its tenants it has the biggest building in New York City beat a mile and half at least.

It is estimated that the largest skyscraper in Manhattan accommodates 5,000 persons daily under its roof. Of these meetings, too, but usually the number of about 1200 are tenants and the rest are employed in their offices. But the Jersey City Building has 2000 tenants. About 99 per cent. of them are corporations, and if principals and executives of these meetings, too, but usually the number of about 1200 are tenants and the rest are employed in their offices. THE CITY IN BRIEF

**NEWS AND BUSINESS.**

**Marshal Osborne Back.**  
United States Marshal H. Z. Osborne returned yesterday from a trip through-out the East, made primarily for the purpose of taking Postoffice Inspector Thomas Keegan, alias Joseph Sedgewick, back to Cleveland, O. Besides looking after his Federal charge, Marshal Osborne spent some little time in New York and Washington.

**Inquest Postponed.**  
It had been the intention of Coroner Trout to hold an inquest yesterday on the body of Juan Acuna, who was fatally shot during a general fight among Mexicans near Monrovia Saturday night and died Monday at the County Hospital. The mysterious murder yesterday near Corvettos engaged the Coroner's time, however, to such a degree that he found it impossible to hold the inquest and postponed it until today.

**"Western Investments."**  
The April number of Western Investments, a ninety-two-page magazine devoted to a resume of western financial matters and an authority on the investment and money markets in the states of the Pacific Slope, has just been issued from the presses of the Times-Mirror Publishing and Printing House. It has an attractive appearance and is full of timely matter. The editorial pages have a pertinent article on Los Angeles real estate advertising.

**New Detectives on Duty.**  
The new members of the detective force, whose appointments were announced Saturday evening by Chief Egan, were assigned to duty under Capt. Bradfield, chief of detectives, yesterday morning, and from now on the city will have the benefit of the regular services of eighteen members of the plain-clothes force, instead of nine, as before the recent appointments. There will also be three or four patrolmen on special duty, thus still more increasing the efficiency of that force.

**Cashing Last Night.**  
A good-sized audience greeted the second appearance of Volney B. Cushing of Maine at Temperance Temple last night, to hear his address on "A Modern Trinitarian," which Mr. Cushing declared to be the liquor dealer, the monopolist and the political boss. He held that the Prohibition party proposes to destroy the power of the trinitarian by striking at the key to the combination, the liquor traffic. Tonight Mr. Cushing will speak on the effects of prohibition in Maine. It will be the last address of a series.

**Six Talks.**  
A series of six talks will be given in the Y. M. C. A. auditorium on Wednesday evening, beginning this evening and running until May 20. Dr. Earl B. Sweet of the University of Pennsylvania will speak tonight on "First Aid in Case of Accidents." The other speakers and their topics are: George W. Parsons, "Experiences in Mining"; Royal H. Criel, "In the Realm of Electricity"; Prof. Birney H. Donnell, "Our Country"; Samuel T. Clover, "Books That Will Help You"; John M. Elliott, "Some Phases of Banking."

**Verdict of Suicide.**  
An inquest was held yesterday by the Coroner on the body of Fred W. Diksmeyer, who shot himself in his place of business on South Los Angeles street early Monday morning. A verdict of suicide was rendered. It is believed by friends of the deceased that he was mentally unbalanced when he fired the fatal shot. His financial troubles were not of such a character as to have given him cause for worry, and he had scores of friends to whom he could have appealed successfully for assistance to tide him over his difficulties.

**Newsboys' Home.**  
To celebrate the first anniversary of its organization, the Loyal Temperance Legion of the Newsboys' Home gave an entertainment on Sunday afternoon, to which the parents and friends of the boys and a few friends who are especially interested in this work were invited. There are fourteen boys at the home, clean, manly fellows, whose enthusiasm and earnestness were evidenced in every number of their programme. Mrs. C. R. Vance, the superintendent, evidently has a keen insight into boy nature, and has accomplished a great deal during her year's work with the boys.

**Ohio Society.**  
About three hundred members of the Ohio Society of Southern California gathered at Blanchard Hall last evening, voted in favor of the proposed affiliation of all state societies in Southern California, and afterward enjoyed an informal programme of song and recital. Refreshments were served. The Cleveland Grays, one of the most noted National Guard organizations in this country, will visit Los Angeles from May 8 until the evening of May 16, during a tour of the West. The local Ohio Society is planning to give the Grays a reception on the evening of May 9.

**Nearly Out of Danger.**  
Teodoro Marmelajo, who was shot through the stomach Saturday night during a general fight among a lot of Mexican peons in "Boxcarville," and upon whom an operation was performed at the Receiving Hospital by Police Surgeon Smith, is slowly recovering at the County Hospital, much to the surprise of the physicians. It was nine hours after he was shot before he received medical attention. No information about the fight having been received by the police until long after daylight Sunday morning. After the operation it was stated that he had about one chance in one hundred of recovery, but he seems to have taken that chance. There is a warrant out for his arrest on the felony charge of assault with a deadly weapon.

**Parish Meeting.**  
The annual meeting of St. John's parish was held last evening and was largely attended. The reports of the various parish societies showed good work done, especially in a charitable direction. The vestrymen elected were: Rev. B. W. R. Taylor, J. E. Cowley, T. L. Winder, A. L. Macleish, F. E. B. Allister, H. L. Miller and E. E. B. French. The rector appointed Dr. Cowley as senior warden, and Judge Winder was elected junior warden, with H. L. Miller treasurer and F. A. McAllister secretary. At the suggestion of the rector a telegram of greeting and welcome was sent to Rev. L. B. Ridgely, the rector-elect. On motion of the senior warden, seconded by the junior warden, a vote of thanks to the Rev. B. W. R. Taylor, expressed the esteem, affection and confidence of the parish, was unanimously adopted by a rising vote.

**BREVITIES.**

## BLOOD-HUNGRY MAN-KILLER.

Most Atrocious of Murders at Cerritos Ranch.

Peon's Skull Stove In and Gash Cut in His Throat.

Hounds Set on Trail of Murderer, but They Did no Service.

Murder most brutal and horrible was revealed to laborers on a work train of the Pacific Electric line on the Cerritos ranch, three miles this side of Long Beach, at 7:30 o'clock yesterday morning. Lying twenty-five feet below the tracks at the foot of the railway embankment on the east side was the body of a murdered Mexican of the peon class, about 20 years old. The head and face were covered with blood which at that time was quite fresh. The first detachment of men from the Sheriff's office arrived on the scene about an hour later and their observations led them to believe that crime had been committed at daybreak. The sheriff and sheriff's deputies and bloodhounds and the Long Beach Chief of Police have not captured the murderer yet.

There was nothing on the body of the murdered man by which he could be identified. His pockets were turned inside out. It is supposed that he was some laborer who had recently quit his job in one of the graving or wood chopping camps near the scene. Doubtless another peon killed the unidentified Mexican. In all his bad dreams after waking from a cup of pepper whiskey jag the murderer never shivered over a picture more repulsive than the one made by his hand. The first blow laid open the scalp and crushed the skull. There was a

In another minute they were noising and poking and caressing her. The Sheriff and the Sheriff's deputies laughed at the heinous which weren't to blame, for they couldn't help making an exhibition of themselves. Sheriff White thinks that a man could as easily locate a fugitive by logarithms as with hounds.

DEED OF A DEVIL.

The peculiar atrocity of the murder and the frenzy to which the murderer must have been worked point to hatred and revenge as the motive, equally with robbery. Unless the murderer is caught and confessed there's no telling why the deed was done, as the ordinary detective is thrown off by these peons. The murderer may have had an old grudge dating from days in Mexico, possibly over some love affair. A peon that will murder will always rob, as he invariably needs the money.

DOCTOR HARRISON

Correct Methods Bring Correct Results

Our unqualified success is built upon merit proving the correctness of our improved methods in treating Diseases of men

Physicians of ability and recognized standing do not collect their fees in advance. Dr. Harrison expects his pay when patient is cured

To the ailing man it is a question of the greatest importance as to where he shall go to be treated; where will he get the quickest and the most certain relief—with him it is a vital question; he wants to know who has the reputation for curing. In this connection it is well known, in fact, an indisputable fact that Dr. Harrison's reputation as a skilled, reliable specialist is unquestioned and thoroughly established. His reliability, fair dealing, skill and progressiveness are fully acknowledged; and that reputation has been built upon merit.

If you are ailing, let us give you some solid advice. Don't experiment; make no mistake; but get the best treatment. Don't fool with patent medicines, or treatment by sample or packages; they are misleading recitations only. Your condition worse than you think it is.

If you will call and have a plain talk with us, we will clearly explain your case, so that you shall fully understand your condition; we always use every care to make not only your case plain to you, but carefully and fully tell you our method. Any man visiting Dr. Harrison will at once understand why they have such an immense practice; why they succeed where others fail. They recognize that they are consulting physicians who are educated men; not pretenders. They find Dr. Harrison ready and anxious to introduce them to the hundreds of cured patients right here in Los Angeles; the experience we claim is genuine; we court investigation of ourselves, our work, our success and the truth of all we claim.

## The Hamburger Store

## The Latest Boycott Circular.

Brought to their senses by public protest by reputable women who refuse to be addressed on personal terms by men whom they do not know and realizing that the U. S. Government could and would protect women against such insult through the mails; Rogers, Biddle and Hay have taken up another tack and we here reproduce their latest screed in its entirety.

(Copy)

Dear Madam:

It is not probable that you have ever given any particular attention to labor unions. What little you have heard about them, may not have been in their favor. If this is so, it is quite likely that the person who spoke ill of labor unions either was misinformed on the subject or has no sympathy with unions.

Of course, unions make mistakes sometimes—everybody does that—but they have done a wonderful amount of good. Did you ever stop to think how children are benefited by unions? Think of the thousands and one things a child needs. Surely, the children of workmen would get but little if workmen did not receive decent wages. And then there are children who have to work themselves. What would become of them if some one did not see that they were not worked too long or too hard? And who would do this if the labor unions did not?

Do you know that the manager of Hamburger's has been arrested, convicted and fined in the Police Court of Los Angeles for child-abuse? Who prosecuted the case? Workingmen—of course.

So when you read statements in Hamburger's ads, abusing unions and union men and women, you will know the cause that prompts this abuse.

The union men and women of Los Angeles—more than 9000 of them—ask that you help them to help the little boys and little girls of this city who are working for their living.

You know there are business men in every city who think more of a dollar than they do of their souls. Gold is their god. It is against such men, and such men only, that the unions have a grievance.

There are many stores in Los Angeles, and be it said to their credit there is only one whose manager has been dragged into the Police Court for abusing a child—and that store is Hamburger's. Surely, it is not your desire to patronize such a place. The working people of this community respectfully request that you refrain from so doing.

The Los Angeles County Council of Labor.

We will dissect this latest tirade and leave an honorable public to judge whether we, a reputable firm of many years' standing in Los Angeles, or the three interlopers, Biddle, Rogers and Hay, who like all creatures too low to do honorable work, live by their willingness to act as hirelings and cheap demagogues to foment trouble, are worthy of belief.

Yes, unions do make mistakes sometimes—and the Typographical Union and the L. A. C. C. of L., in waging this boycott against us, are making the biggest kind of mistake; and their representatives deliberately give voice to the lie saying that Hamburgers abuse Unions per se or the male and female members individually. We have no grievance to settle with any one; but the underhanded methods of Rogers, Hay and Biddle have placed honorable Union men and women in hostility toward us because we will not interfere in their troubles with the Los Angeles Times.

As to the charges of child abuse, the one case in point where we paid a fine of \$50.00 was a technical violation of the law only and we have already published the signed statement of the boy Martin Leashy that he was not mistreated by Hamburgers. The action was brought by representatives of the Typographical Union as spite work solely—when as a matter of fact every firm in town at the time occasionally requested some service of part of their cash boys longer than the statute number of working hours—yet no other firm was charged with child abuse, nor was it "abuse" as pure minded people would construe the meaning of the word.

Why do Biddle, Rogers and Hay make so much fuss about child labor? Certainly the children working at Hamburgers do not have to work there. Every store in town is anxious for cash boys and girls but the children will not leave Hamburgers simply because they get the best treatment, highest wages and shortest hours of any store in the city. Come in and ask the children personally and be convinced. We have cash boys and girls in our employ who have been with us two and a half years. That does not look much like child abuse and yet that is the only thing that Biddle, Rogers and Hay have to use as a point in trying to injure us simply because we will not stop advertising in the Times. We say frankly that the time will never come when we will again interfere or act as mediators between the Typographical Union and the Los Angeles Times; so if the boycott is to be kept up by such disreputable creatures, let it continue. It makes friends for us and opens the eyes of the public to the truly dangerous methods pursued by some labor organizations ruled by men without caste or character.
